

FIELD TRIP TO UKIAM

Date: 10/01/2025

The Internal Quality Assurance Cell (IQAC) of WGCE organizes an annual field trip to "Ukiam," a cherished tradition of the institution. This activity is not just a visit to a picturesque destination but a meaningful educational experience. Students delve into the significance of the location, exploring its historical, cultural, and geographical importance.

This year, approximately 200 participants, including students and faculty members, took part in the field trip, fostering a spirit of collective learning and engagement.

Such initiatives aim to develop essential skills like teamwork, cooperation, active participation, and self-reliance among students. Moreover, these experiences equip future educators with the knowledge and practical skills to plan and conduct similar activities for their students, enriching classroom learning with experiential education.
