Energy Policy

West Guwahati College of Education is a teacher training college, situated in Guwahati. The college emphasised quality value oriented education for the future. The main motto of the college seeks to "Shower the amrit of knowledge" among the students trainees for the future so that they can shape and build the upcoming generation. The policy related to energy reflects the idea of conservation, and RRR (Reduce, Reuse, and Recycle). The initiative for green campus with green energy is adopted by the college in ensuring the vision and mission of the institution. For conservation of energy, using alternative source of energy is the main focus of the institutions. The policies initiatives and activities for the conservation of energy are implemented by the collaborative efforts of the various cells of the institution. The college has ISO certified number ISO50001:2018

Objectives

1. To provide awareness about the energy sources which are renewable as well as non renewable
2. To sensitise all the stake holders of the institution
3. To inculcate various measures for misuse of energy
4. To implement values and principles related to conservation of energy
5. To organise different activity on energy conservation

Scope

The energy conservation policy has taken effective steps for implementation by the college to develop a green campus so that the student teacher could be aware about the future prospect towards renewable and non renewable energy sources.

Energy policy

1. Use of LED bulbs will be installed in each class room as well as office room
2. Energy monitoring committee will be constituted in the institution to check the use of energy available in the institution.

Dr. Gitanjal Choudhury
Principal
West Guwahati College of Education
Templeghat Pandu, Guwahati-12

3. The sign board on energy conservation should be displayed at the main point of institution.
4. Solar energy plate should be installed to save energy.
5. All teaching and non teaching and students of the institution are obliged to save electricity and water in proper way.
6. The energy monitoring committee will conduct energy audit by annually and must submit the report to the head of the institution.
7. To install rain water harvesting.
8. To develop systematic waste management mechanism.

The policy will be provided to all the stakeholders of the institution at the beginning of the session every year for effective usages inside the campus of the institution.

Dr. Gitanjali Choudhury
Principal
West Guwahati College of Education
Temolegha Pandu, Guwahati-12.
